

ZILR ZIPR

E - POWERED KIT CART - GEAR UP... ROLL OUT...

Behind every production, event, or technical setup there's a team that's keeping things moving, the camera ops, AV techs, engineers, and runners who move the gear that makes the show happen.

ZILR ZIPR was designed for professionals, the unsung professionals behind the scenes who keep things rolling!

Design to keep creativity moving - Every crew knows the drill. From photo studios to festival grounds, production teams spend hours every day pushing, hauling, and waiting. The time lost moving gear could be better time spent and be a more enjoyable way to get jobs done!

ZILR's ZIPR redefines how you keep your creativity moving.

- **Compact design** – fits through doors, into vans and stores upright.
- **Fast to fold | Quick to deploy** - Tool free to setup and quick release battery.
- **Flexible Functionality** - Push it, Pull it or Ride it as the situation demands.
- **Cargo Workhorse** - Combined kit and rider payload of up to 300kg*
- **Advanced Braking** - Regenerative, assistive hill start and decent with anti roll back.
- **Strong & Powerful** - High torque multi motor drive with IPX5 weather rating .

Every crew knows the drill.

From photo studios to festival grounds, production teams spend hours every day pushing, hauling, and waiting. The time lost moving gear could be time spent in much more creative ways.

- Too much to carry.
- Too far to go.
- Not enough time between setups.

ZILR ZIPR was built to solve problems.

An electric powered KIT cart simplifies logistics, cutting down repeat journeys, runs back to the car to bringing smooth motion to set up and pack down, taking the strain off the crew.

Gear up with a choice of Powertrain & Cargo Capacity.

JOB	BEFORE ZIPR	AFTER ZIPR
Moving cameras and lighting across studio floors	4 trips, 2 people	1 trip, no strain
Setting up and striking expo stands	30 min reset	15 min reset
Shuttle between stages or tents	Fatigue & delay	3× faster transfers
Warehouse / Storage unit runs	Walking fatigue and limited cargo carry	Cover long distances with large loads
Crew support on live sets	Delays waiting for vehicles	Move instantly, stay flexible

Safety & Control

Electronic braking, balanced geometry, and intelligent assist systems keep movement stable, safe and under control.

- **Clear Vision** - Back lit instrument panel, Front headlight, Logo light front and rear.
- **Balanced chassis design** - low deck and distributed weight improve stability when loaded.
- **Electronic Braking System (EBS)** - engages automatically when the throttle is released.
- **Dual braking system** - electronic front + mechanical rear disc for confident stopping under load.
- **Hill-Start Assist** - gentle holding torque prevents rollback on slopes.
- **Gradient Compensation** - adjusts motor output on slopes to maintain a steady pace uphill or down.
- **Three speed modes** - limit top speed and acceleration to match the task.
- **Automatic shut-off** - powers down after inactivity (10 min mainboard / 60 min battery).
